

MineQuest, Inc.

Larry Dye

Formed in 1994, MineQuest Inc. is an industry leader in high-end electronic manufacturing and repair. The Owner and President is Larry Dye. MineQuest occupies a 12,000 sq. ft. facility in Cedar Bluff, VA equipped with purpose built testing equipment for all its products.

For 22 years, the company has been serving the coal mining industry with competitive prices and expert service for quality remanufacturing, repair, replacement, or exchange, for all types of underground mining equipment. MineQuest knows the importance of following proper guidelines and MSHA requirements, which is why only OEM replacement parts to repair all equipment is used.

The vision of the company is to deliver premium value comprising the best service at the lowest possible cost to the coal mining industry and to be a trusted partner whose actions are guided by faith in God. The mission of MineQuest is to ensure that mines remain operational through an efficient repair, replacement, or exchange program offered onsite or at its remanufacturing plant. MineQuest holds close the values of people, faith, integrity, mutual respect and trust.

MineQuest remanufacture includes: reconditioning and repair of mining electrical enclosures. Repair or exchange products comprise: remotes, transmitters and electrical components. Replacement includes: hydraulic fittings, hoses, assembly kits, cables, as well as remote controls, SCR drives, and logic units.

Products from MineQuest include: circuit breakers, CM radio receivers, ground monitors, SCR panels, and remote monitors. Also included in the range are: breaker panels, miner remote monitors, page phone sirens, and radio demultiplexers. Other MineQuest products are: remote power supplies, solid state pump starts and speed switches for battery equipment, test benches, CM battery backup, and contactors and logics for battery powered equipment.
